

Atlantic Integrated Freight GmbH

Hamburg

Navigating your cargo with professional care, A.I.F. Germany Hamburg

With the establishment of the **A.I.F. Hamburg** office in 2004, A.I.F. began specializing in console containers, heavy cargo, and project forwarding.

Having successfully completed numerous large-scale projects, A.I.F. Germany Hamburg has demonstrated outstanding capabilities.

With a deep understanding of regional characteristics and market environments, the office continues to strengthen its position as a global logistics provider.

Linked with the EU Project Lab

Providing optimal transportation solutions based on deep understanding of special cargo

Our Specialty

Well Experienced Handling Skills

We provide customized ocean freight services based on extensive experience in handling all types of cargo, including general cargo, oversized and special cargo, break bulk and RO/RO shipments, container loading and barge transport, as well as specialized loading for vehicles and caravans and consolidated cargo.

Break Bulk & RO/RO Survey Know-How

We provide tailored logistics solutions for project cargo transportation, covering everything from feasibility studies and project management to vessel chartering. From pre-carriage of heavy and oversized cargo (H/L, ODC, G/C) to port handling, inland transportation, and final positioning at the installation site, the entire process is managed in an integrated manner.

A.I.F. Europe Project Lab

Your valued Project and Special Cargo, Our Mission

A.I.F. Europe Project Lab

Established in 2017, **A.I.F. Europe Project Lab** has continued to expand its business steadily with Europe as its strategic hub.

Based on a deep understanding of product characteristics, we have consistently worked to provide optimal customized solutions. As a result, we have expanded our business scope and built an efficient and stable logistics network through close partnerships with various partners.

A.I.F. Europe Project Lab will continue to deliver optimal services to our customers, built on professionalism and trust.
