

Atlantic Integrated Freight S.R.L.

Milano

Aiming High-end Service Quality, A.I.F. Italy

Atlantic Integrated Freight S.R.L. was established in 2003 in Milan, Italy, with the vision of providing the best logistics solutions.

Located just one hour from MXP Airport and two hours from the Port of Genoa, the A.I.F. Italy office is strategically positioned for both air and ocean freight operations. Based on this advantage, we provide high-end logistics services tailored to customer needs, handling a wide range of cargo from general goods and machinery to high-value products.

Our Specialty

Certifications

GOH (Garment On Hanger)

GOH (Garments on Hanger) is a transportation method in which garments are shipped on hangers without folding or packing them into boxes, helping maintain their shape and quality while minimizing the risk of damage. With specialized personnel and various GOH containers, we ensure the safe and reliable transportation of luxury fashion garments.

Repacking

Perishable Shipments

To maintain the quality of **temperature-sensitive products**, we ensure safe handling through insulated packaging and the use of internal liners. Our systematic repacking services help protect cargo from external temperature fluctuations throughout the transportation process.
